

## Arizona Report of Public Agency Performance on Post-School Outcomes

### Indicator 14: Secondary Transition / Post-School Outcomes

Percent of youth who had IEPs, are no longer in secondary school and who have been competitively employed, enrolled in some type of postsecondary school, or both, within one year of leaving high school.

#### Measurement

The data are taken from Arizona's Post School Outcomes Survey. Each public education agency (PEA) in the assigned cohort year must administer the survey via phone to all special education students who exited the prior school year. PEAs with a student population of 50,000 or more must administer the survey every year.

#### Explanation of Indicator

The reported percentages represent the number of youth who exited the PEA the prior year, and who reported they are currently employed or attending postsecondary training or education, or both.

For public reporting purposes, an asterisk (\*) is listed for a PEA when the PEA reported responses for less than 10 surveys. In these instances, the data are not reported to ensure confidentiality.

The data reported below are survey responses collected between April and September 2008.

**State Target** for SY 2007–2008: 71.8%

PEA	PEA Results by Percentage	State Target Met?
Agua Fria Union High School District	20.5	No
Az-Tec High School	*
